DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 16-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. As written the device is merely comprised of data structures. There is no linkage made between the data structures and the actual device. To obviate the rejection in claim 16 change "comprising" to something like "wherein the device stores".

Allowable Subject Matter

3. Claims 1-15 are allowed.
